NOTE that the style of injection moulded dispensers vary between sizes, and that dispensers that hold the same height of leaflets are not necessarily the same height!

(for example, A5P and third A4P leaflets are both 210mm tall, but A5P dispensers are 191mm tall and TA4P dispensers are 150mm tall)

We can fabricate dispensers in acrylic if you prefer.

Fabricated acrylic dispensers are more expensive, but have the following advantages:

- Styles for different sizes can be made to a consistent design
- Bespoke or non-standard sizes of leaflets can be accommodated
 - Coloured, tinted or frosted dispenser fronts are possible
- Where space is tight, narrower dispensers can often be made

Please enquire for prices for fabricated dispensers, or for help with spacing

LEAFLET SIZE	A4L	A4P	A5L	A5P	A6L	A6P	TA4P	4-wide TA4P	Bus. card
<u>WIDTHS</u>									
LEAFLET WIDTH	297mm	210mm	210mm	148mm	148mm	105mm	99mm	99mm	approx. 85mm
DISPENSER WIDTH (internal)	340mm	230mm	230mm	160mm	160mm	110mm	110mm	4x 104mm	93mm
DISPENSER WIDTH (external)	330mm	240mm	235mm	165mm	165mm	119mm	115mm	425mm	101mm
<u>HEIGHTS</u>									
LEAFLET HEIGHT	210mm	297mm	148mm	210mm	105mm	148mm	210mm	210mm	approx. 55mm
DISPENSER WIDTH	186mm	250mm	135mm	191mm	120mm	120mm	150mm	150mm	37mm
*STANDARD SPACING	60mm	60mm	60mm	60mm	50mm	60mm	60mm	60mm	50mm
*MINIMUM ADVISABLE SPACING	45mm	50mm	40mm	45mm	35mm	40mm	45mm	45mm	30mm
*SPACING is the size of the vertical gap allowed between the top of a leaflet and the bottom of the leaflet dispenser immediately above it									
<u>DEPTHS</u>									
INTERNAL	32mm	18mm							
EXTERNAL	38mm	40mm	35mm	35mm	38mm	38mm	40mm	65mm	23mm

Width-wise, you can butt holders up together or space them apart, Height-wise, **remember to leave sufficient space between the top of a leaflet and the bottom of the leaflet holder immediately above it.** The table above shows how far the dispenser protrudes (external depth). Consider that you will need to be able to place a stack of leaflets or cards in the holders, and that customers will need to be able to get them out!

**WE CAN PLACE THE HOLDERS WHEREVER YOU SPECIFY,
BUT WOULD STRONGLY ADVISE THAT YOU
DO NOT ALLOW LESS VERTICAL SPACE THAN SHOWN ABOVE AS
MINIMUM ADVISABLE SPACING!**
